

## 5.6.2

**WARNING:** Jitterbit version 5.x is the legacy Jitterbit product. Jitterbit strongly recommends that all customers upgrade to Jitterbit Harmony. For more information, see [Upgrading from Jitterbit v5.x to Harmony](#) and [Getting Started](#).

Download the latest version of the v5.x Studio and v5.x Jitterbit Server at [Customer Downloads](#). For support, visit [Getting Support](#).

### Release Notes – December 2015
